

For families with kids born 2025–2028

Your child can get \$1,000 — free.

No income limit. No paperwork beyond opening the account.

- The U.S. government will deposit \$1,000 into a savings account for every U.S. citizen child born January 1, 2025 through December 31, 2028.
- There is no income limit. Families on SNAP, Medicaid, or no income at all still qualify.
- The money is invested in a low-cost U.S. stock index fund. With a typical 7% annual return, \$1,000 alone grows to about \$3,400 by age 18.
- Families can add up to \$5,000 per year. Even \$5 a day (\$1,825 a year) becomes about \$66,000 by age 18.
- The child can use the money at age 18 for college, training, a first home, or a small business.

How to open one

1. Wait for July 4, 2026 — that's the official launch day.
2. Go to trumpaccounts.gov.
3. You will need: your child's name, date of birth, and Social Security number.
4. The \$1,000 will be deposited automatically — usually within a few weeks.
